

Nursery Life – November 2020

We've been using footprints, handprints and a variety of collage materials to create firework night and space pictures

exploring textures, expressive art and design, understanding the world

We have been baking stars for our space theme, using counting and numbers to measure ingredients.

In the preschool room we also we have continued to do number and maths games and practised our fine motor skills to use tripod grip for our writing [Mathematics](#), [literacy](#), [physical development](#)

In the garden we have been working together to create obstacle courses and balance on the balancing boards [Making relationships](#), [communication](#), [physical](#)

The children have been exploring lots of new toys this month including cause and effect toys in the baby room, role play in the snug and technology toys
